Dear Governor Carlin:

Submitted herewith is the twenty-ninth Annual Financial Report of the State of Kansas prepared by the Division of Accounts and Reports, Department of Administration, in compliance with K.S.A. 75-3735 and the requirements contained therein.

This report includes a summarization of the financial transactions recorded in the central accounting records for the fiscal year ending June 30, 1982. These financial transactions are summarized into ten major fund class groupings which are found in Sections II through XI. In addition, information pertaining to the revenue bond indebtedness of the State is provided in Section XII. Notes to the financial statements are found in Section XIII.

Of particular interest, is the condition of the State General Fund which reflects a balance at June 30, 1982, of $79,923,535.32 that is available to finance appropriations of the succeeding fiscal year. Also of particular interest are the payments in the form of aid to local government units that amounted to $611,046,000 or 46 percent of the expenditures made from the State General Fund during fiscal year 1982. For additional highlights pertaining to some of the major elements of the state's operation for this period, your attention is invited to the section of the report entitled "Highlights of Selected Financial Activities".

More detailed information pertaining to individual funds and other miscellaneous financial information will be published in a supplemental volume at a later date.

If this office can provide additional information or answer any questions concerning items contained in this report, please let me know.

Respectfully submitted,

STATE OF KANSAS
HIGHLIGHTS OF SELECTED FINANCIAL ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 1982

GENERAL FUND

The General Fund is maintained to finance all authorized governmental activities not provided by special funds. Revenues not dedicated for special funds by law are deposited into the General Fund. Disbursements from the General Fund are authorized by legislative appropriation acts.

Information on the General Fund transactions are presented below and on the following pages through the use of charts, graphs, statements and comments. Additional details on the revenues, expenditures, appropriations and balances of the General Fund are presented in Section II of this report.

The unencumbered cash balance available to finance succeeding fiscal year appropriations at June 30, 1982 decreased to $79,923,535.32. This decrease is primarily due to the fact that actual revenues were less than the estimated revenues which the legislature utilized in making appropriations.

A comparison of the unencumbered cash balance of the General Fund at June 30, 1982, and June 30, 1981, is presented in the statement below. A graph showing revenues, expenditures and available balances at the close of fiscal years 1973 through 1982 is presented on page ix of this report.

GENERAL FUND REVENUES

The General Fund revenue collections for the 1982 fiscal year were $1.27 billion as compared to $1.23 billion for the 1981 fiscal year. This amounted to an increase of $46.5 million, or 3.8 percent. However, it should be noted that this increase was less than the increase of $128.7 million for fiscal year 1981 over 1980. An analysis of the sources of revenue discloses that $1.19 billion, or 94 percent of the total 1982 fiscal year revenue was derived from tax sources. The non-tax sources of revenue amounted to $79.9 million, or 6 percent of the total revenues. Page vii of this report presents pie charts showing percentages of total revenues collected.

The General Fund statement presented below indicates that the major increases in revenue collections are in the categories of Income and Inheritance Taxes ($18.9 million), Sales and Compensating Taxes ($21.6 million) and minor increases in the remaining categories of tax revenues of $ 3 million. The non-tax revenues show an overall increase of $2.9 million which is reflected primarily in the category of Revenue from the Use of Money and Property.

A detailed comparative statement of operating and non-operating revenue of the General Fund is provided in Section II of this report on pages 23 through 25.

GENERAL FUND EXPENDITURES

The General Fund expenditures for the 1982 fiscal year totaled $1.332 billion as compared to $1.258 billion for the 1981 fiscal year. This represents an increase of $73.34 million or 5.8 percent. The analysis of expenditures by object categories presented in the statement on the following page shows that the major increases are primarily reflected in Salaries and Wages ($30.1 million, or 8.0 percent over last fiscal year) and Aid to Local Units ($44.1 million or 7.8 percent over last fiscal year). All other categories show a net decrease of .9 million, or .3 percent less than last fiscal year.

The analysis of expenditures by function of government presented in the statement on the following page shows that the major increases are in Education and Research ($56.5 million, or 7.1 percent over last fiscal year) and Public Safety ($6.9 million, or 15.8 percent over last fiscal year), and General Government ($7.5 million, or 6.3 percent over last fiscal year). The Kansas Educational Building Fund was created by law and receives a portion of the proceeds of all property subject to ad valorem taxation. The present tax levy of one mill provides funds for erecting, equipping and repairing buildings at the educational institutions under the control of the Board of Regents. Expenditures from this fund are made on the basis of appropriations by the Legislature.

Revenues credited to the fund for fiscal year 1982 consisted primarily of tax moneys. Total revenues received into the fund for the 1982 fiscal year were 12.8 million as compared to $10.4 million credited for the 1981 fiscal year. Expenditures from the fund in the 1982 fiscal year were $12.1 million as compared to $11.7 million for the 1981 fiscal year. An analysis of the fund at June 30, 1982, shows resources of 7.4 million available to finance the succeeding fiscal year's appropriations.

Section IX entitled "Capital Projects Funds", presents detailed information on revenues, expenditures, and balances of the Kansas Educational Building Fund.

STATE INSTITUTIONS BUILDING FUND

The State Institutions Building Fund was created by law and receives a portion of the proceeds of the annual permanent state tax levied on all property subject to ad valorem taxation.

The present tax levy is five-tenths mill which provides funds for constructing, repairing and equipping buildings at the several charitable, benevolent and mental institutions of the State. Expenditures from this fund are based on appropriations by the Legislature.

The revenue credited to the fund from taxes amounted to $6.4 million for fiscal year 1982 as compared to $5.1 million for fiscal year 1981, an increase of $1.23 million.

Expenditures from the fund for fiscal year 1982 amounted to $6.8 million as compared to $6.0 million for the preceding fiscal year. An analysis of the balance sheet at June 30, 1982, shows resources of $4.6 million were available to finance the succeeding year's appropriations as compared to $3.9 million at June 30, 1981.

Section IX entitled "Capital Projects Funds", presents detailed information on revenues, expenditures, and balances of the State Institutions Building Fund.

CORRECTIONAL INSTITUTIONS BUILDING FUND

The Correctional Institutions Building Fund was created by the 1976 Session of the Legislature. It received a portion of the proceeds on the annual permanent state tax levied on all property subject to ad valorem taxation. The authorization for the tax levy of one-tenth mill expired on November 1, 1978.

The proceeds raised by the levy are available for the use and benefit of state correctional institutions. Authorization for expenditures from this fund is based on appropriations by the Legislature. The expenditures from the fund for fiscal year 1982 amounted to $704 thousand as compared to $789 thousand for the preceding fiscal year. An analysis of the balance sheet at June 30, 1982, shows resources of $4.7 thousand available to finance the succeeding year's appropriations.

Section IX entitled "Capital Projects Funds", presents detailed information on revenues, expenditures, and balances of the Correctional Institutions Building Fund.

Transportation unds consist primarily of the State ighway Fund, Urban Mass Transit Fund, ederal Highway Safety Fund, Rural Highway ublic Transportation Demonstration Fund, tate Freeway Construction Fund, State reeway Fund, Restricted Fee's Fund, County qualization and Adjustment Fund and the ity and County Highway Fund. A com- arative combined statement of revenue, xpenditures and balances of these funds is resented on the following page.

evenues deposited into the Transporation unds are generally restricted by law for inancing activities of the Department of ransportation in the construction, recon- truction and maintenance of the state ystem of highways and the distribution o counties and cities of shared revenue rom motor fuel taxes for maintaining roads nd streets.

he comparative combined statement on he following page shows the total revenues ere $344.2 million for fiscal year 1982 as ompared to $354.3 million for fiscal year 981, a decrease of $10.1 million. Operat- ng revenues amounted to $358.3 million for iscal year 1982 as compared to $363.2 illion for the preceding fiscal year, a ecrease of $4.9 million.

he decrease in operating revenues is rimaril due to the category of Federal rants for Highways and Bridges which ecreased $13.6 million from fiscal year 981. Non-operating revenues for fiscal ear 1982 amounted to a negative $14.1 illion as compared to a negative $8.9 illion for fiscal year 1981.

he decline in non-operating revenues is rimarily due to the transfer of money from he State General Fund into the State reeway Fund, which represents interest arned by the State Pooled Money Investment oard on the average daily balance of the ighway Fund in the State Treasury. These ransfers provided $5.4 million to the State Freeway Fund during the fiscal year as compared to $9.3 million during fiscal year 1981.

The largest decrease was in the category of Highways and Bridges, which shows a $55.7 million decrease over last fiscal year. Non-operating Expenditures for fiscal year 1982 amounted to $40.3 million as compared to $16.0 million last fiscal year, an increase of $24.3 million. The increase is primarily due to the category of Advances for Purchase of Investments and Other Non-operating Expenditures which experienced an increase of $23.9 million.

The total outstanding indebtedness at June 30, 1982, for highway revenue bonds issued is $235.96 million to be retired by fiscal year 2003. The proceeds of the bond sales as well as monies of the State Freeway Fund may be invested until cash is needed for payment of authorized obligations.

The unexpended cash balance at June 30, 1982, is $55.3 million. However, obligations consisting of orders and contracts for services, supplies, equipment and capital construction at June 30, 1982, amounted to $173.3 million. Although the amount of obligations exceeds the available unexpended cash balance, revenue is anticipated to be received in time to meet these obligations as they become due.

A graph depicting revenues, expenditures and unexpended balances of the Transportation funds from fiscal year 1973 through fiscal year 1982 is presented on page xiii of this section.

The Freeway Construction Fund investments amounting to $109,144,239.92 differs from the Pooled Money Investment Board's balance of $110,144,239.92. This is due to the fact that Accounts and Reports processed $1,000,000.00 going to the State Treasury as a June, 1982 transaction and the Pooled Money Investment Board processed it as a July, 1982 transaction.

Also not included is the Agency Imprest Fund in the amount of $2,000.00.

FEDERAL REVENUE SHARING FUND

Federal Revenue Sharing monies were authorized from the Federal Government under the State and Local Assistance Act of 1972. Legislation provided for investment of these monies as a trust fund subject to appropriation. Due to the expiration of the Act in fiscal year 1981, the only revenue for fiscal year 1982 was interest income from invested balances of $3.8 million. This revenue, plus the unencumbered balance at June 30, 1981, of $21.5 million, was used to finance fiscal year 1982 appropriations of $20.6 million. The unencumbered cash balance at June 30, 1982, available to finance the succeeding fiscal year appropriations is $8.1 million. Additional details of the Federal Revenue Sharing Fund may be found in Section III of this report.

EMPLOYMENT SECURITY FUND

The Employment Security Fund was established by law as a special fund, separate and apart from all public monies or funds of the State. The law provides that the fund consist of three separate accounts as follows: (1) a clearing account, (2) an unemployment trust fund and (3) a benefit account. Deposits into this fund consist of contributions, fines and penalties levied on employers for unemployment benefits, interest earned on trust funds deposited in the U.S. Treasury, federal grants for unemployment benefits to federal employees and ex-servicemen and federal grants for fifty-percent of the extended benefits to a maximum of thirteen weeks. Expenditures from the fund are paid to recipients for a period of twenty-six weeks with some extended benefits for an additional thirteen weeks.

Analysis of the Employment Security Fund transactions for fiscal year 1982 shows total revenue of $139.4 million as compared to $152.2 million last fiscal year. Expenditures this fiscal year totaled $159.2 million as compared to $168.4 million during fiscal year 1981. The most significant change in revenue for this fiscal year occurred in the category of Federal Grants which decreased $32.2 million from the preceding fiscal year. The most significant change in the expenditures for this fiscal year occurred in the category of Worker Adjustment Unemployment Assistance, which decreased $24.9 million from fiscal year 1981. Expenditures exceeded revenues this fiscal year by $19.8 million to decrease the fund balance to $205.6 million at June 30, 1982.

Presented below is a comparative statement of revenues, expenditures and ending fund balances for fiscal year 1982 and 1981. A graph illustrating the past ten years is presented on the following page. Additional detail is presented in Section VIII of this report entitled "Trust and Agency Funds."

COMBINED FUNDS OF THE STATE

Statements have been prepared on the following pages on the combined revenue and expenditure transactions for all funds deposited and disbursed through the State Treasury. The forthcoming statements show comparative statistics for both the 1982 and 1981 fiscal years and are prepared on the same basis for each fiscal year. Included in these statements are the financial transactions of 1,089 separate funds and 3,669 budgetary accounts for fiscal year 1982. It is important for the reader to remember that these statements are presented for statistical purposes only and the resources of one fund cannot be transferred to another fund unless authorized by statute.

The Comparative Statement of Operating Revenue has been prepared on a net basis by the subtraction of refunds from the gross receipts. The 1982 fiscal year shows an increase of $71.7 million over fiscal year 1981 in net operating revenues. The increase is reflected in all categories of revenue, except for Federal Grants, Other Grants and Gifts, and Cigarette and Tobacco Products Taxes, which decreased. The major increases are in the categories of State Sales and Compensating Taxes, Revenue From the Use of Money and Property, and Agency Earnings.

The Comparative Statements of Operating Expenditures have been prepared on a net basis by subtracting amounts financed by non-operating sources of revenue from gross operating expenditures. The 1982 fiscal year shows an increase in net operating expenditures of $25.7 million over the preceding fiscal year. This increase is reflected only in major expenditure categories State Operations and Services, Local Assistance, and Other Claims and Grants.

Charts entitled "Where the Money Comes From" and "Where the Money Goes" have been prepared and are presented in this section on pages xviii and xix.

Additional detailed statements and a balance sheet on the combined funds of the State are presented in Section I of this report.

LOCAL ASSISTANCE

The following statement and chart have been prepared to show the source and purpose of gross local assistance expenditures of both the Federal and State programs. Gross assistance expenditures to the local governmental units were $740.9 million in fiscal year 1982 as compared to $708.4 million in fiscal year 1981. The net decrease in gross aid to local units for Federal expenditures amounted to $13.4 million, and for State expenditures, an increase of $45.9 million which results in a total increase of $32.5 million over fiscal year 1981.

Federal Assistance is provided to local units of government for highway purposes through the Federal Highway Safety Fund. Monies for secondary road projects are expended by the Department of Transportation for capital improvements, etc., and are classified as such in the financial statements.

FEDERAL GRANTS

The net amount of federal grants deposited in the State Treasury during the 1982 fiscal year totaled $588.5 million as compared to $652.7 million received during the preceding fiscal year, which is a decrease of $64.2 million in federal grants for the State of Kansas. The decrease is reflected in all categories of grants, except Assistance and Relief, which increased $.8 million. Highways and Bridges and Other Federal Grants experienced the greatest decreases. There was also a large decrease in unexpended grant monies returned to the Federal government, amounting to almost $16 million. Except for the Federal Revenue Sharing Act monies and some federal reimbursements which are placed in the State General Fund, federal grant monies are used for specific programs and cannot be used in support of general state government.

Presented below is a statement showing the general purpose of federal grants and the amounts received during both the 1982 and 1981 fiscal years.

STATE BONDED INDEBTEDNESS

The State of Kansas does not have any general obligation bonds outstanding. However, statutory authority has been granted to issue bonds for academic facilities, student unions and dormitories at state universities by the State Board of Regents; highway construction by the Department of Transportation; sewage facilities by the Department of Health and Environment; National Guard armories by the Adjutant General; and office buildings by the Department of Administration.

The total outstanding debt at June 30, 1982, was $316,944,000 as compared to $331,886,000 for fiscal year 1981. The decrease in bonded debt is due to debt principal payments of $14.9 million for this fiscal year.

Presented in the following schedule is the debt service requirements to maturity by fund class. Also, a graph reflecting the amount of debt payment requirements to be met for future year maturities is presented on the following page. Additional detail of the bond indebtedness is also presented in Section XII of this report.

Federal Revenue Sharing Fund

The Federal Revenue Sharing Fund was created during the 1973 Legislature by enactment of K. S. A. 1973 Supp. 75-4257 et seq. to receive payments made to the State of Kansas under Title I of the State and Local Fiscal Assistance Act of 1972 (Public Law 92-512; 31 U. S. C. A. 1221). Moneys in the fund, not immediately required for the purpose for which received, are invested in time deposit, open accounts or certificates of deposit in commercial banks or trust companies or in United States Treasury bills or notes. Expenditures of the proceeds of the fund are authorized by appropriations made by the Legislature.

Special Revenue Funds

This group or class includes a number of funds representing many separate activities of the state government created by law for specific purposes, usually on a self-supporting basis. Earmarked funds are received from taxes, agency earnings, revenues from the use of money and property, federal grants and other miscellaneous sources. The expenditures are controlled by appropriations, special grants of authority contained in standing laws, or federal laws where federal grants are involved.

These revenues are expected to be received by the State in time to meet the cash requirements as obligations become due.

Note 3 -- The Secretary of Transportation is authorized by statute to contract with the Kansas Turnpike authority to pay from the State Highway Fund such amounts as shall be required to make up any deficiency in the revenues received from the operation and ownership of a turnpike project.

*The State Freeway Construction Fund Investment amount is $1 million less than the figure provided by the Pooled Money Investment Board due to the fact that the Division of Accounts and Reports processed receipts in the amount of $1 million as June, 1982 business and the Pooled Money Investment Board processed it as July, 1982 business.

The anticipated revenue is primarily in the form of matching federal highway construction funds to be received from the Bureau of Public Roads and is expected to be received by the State in time to meet cash requirements as the obligations become due.

The Freeway Construction Fund investments amounting to $109,144,239.92 differs from the Pooled Money Investment Board's balance of $110,144,239.92. This is due to the fact that the Division of Accounts and Reports processed $1,000,000.00 going to the State Treasury as a June, 1982 transaction and the Pooled Money Investment Board processed it as a July, 1982 transaction.

Also not included is the Agency Imprest Fund in the amount of $2,000.00.

Trust and Agency Funds

In this class are included funds that the state receives, holds, and/or disburses in a fiduciary capacity as trustee, agent or custodian. Trust funds are normally invested to produce additional revenue to be used for the same purposes for which the funds were established. Into the Agency Funds go moneys collected by the state, as agent, and disbursed to other governmental agencies and individuals in accordance with laws and regulations.

Payroll Clearing Fund

The law provides that a payroll account be established in the state treasury to permit the issuance of a consolidated payroll for each state agency. The receipts to this account are derived from transfers of monies from other funds within the treasury. The disbursements are made by payroll warrants for the net amount of salaries to state employees and the remainder of funds in the form of F. I. C. A., withholding taxes and retirement deductions are disbursed to other governmental units. Normally monies transferred in are disbursed within the same month and not later than the end of a quarter.

NOTES TO THE FINANCIAL STATEMENTS

State of Kansas
Notes to the Financial Statements
For the Year Ended June 30, 1982

1. SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying financial statements have been prepared to the extent possible in accordance with generally accepted principles of governmental fund accounting. The accompanying financial statements are prepared from fund and account records maintained by the Division of Accounts and Reports and include all funds required by statute to be deposited and disbursed through the State Treasury by the various boards, commissions, authorities and state-spending agencies which are subject to legislative review and annual appropriation. Also included in the combined and Fund Class Balance Sheet Statements are: (1) monies held in trust for inmates, clients and members confined at state institutions; (2) authorized imprest funds; (3) investment activities of the Department of Transportation, Kansas Public Employees Retirement System, Department of Health and Environment and the University of Kansas Medical Center. Exclusions from these financial statements are: (1) certain locally collected custodial funds; (2) institutional canteen funds; (3) patient's benefit funds; (4) student union, athletic, cafeteria, foundation and endowment funds of the state supported universities and (5) Kansas Turnpike Authority, except for funds appropriated by the Legislature for a feasibility study of additional turnpike interchanges.

B. FUND ACCOUNTING

The financial activities of the State are organized and accounted for on the basis of individual funds segregated for the purpose of carrying on specific activities or obtaining certain objectives in accordance with statute, specific regulations, restrictions or limitations. These individual funds and financial activities have been classified into the following fund categories and account group: (1) General Fund, (2) Federal Revenue Sharing Fund, (3) Special Revenue Funds, (4) Highway Funds, (5) Enterprise Funds, (6) Intragovernmental Service Funds, (7) Trust and Agency Funds (Employment Security Funds and Retirement Funds are included in this class, but shown separately), (9) Clearing, Refund and Suspense Funds, (10) State Payroll Clearing Fund and (11) General Long-Term Obligations Account Group. The General Fund, Federal Revenue Sharing Fund, Special Revenue Funds, Highway Funds and Capital Projects Funds represent Governmental Fund Types. The Enterprise Funds and the Intragovernmental Service Funds represent Proprietary Fund Types. The Trust and Agency Funds, Clearing, Refund and Suspense Funds and the State Payroll Clearing Fund represent Fiduciary Fund Types. An explanation of each fund class utilized in this report is included on the reverse side of the title page for each fund class section.

C. BASIS OF ACCOUNTING

The financial statements contained in this report are prepared on the modified accrual with encumbrance modification basis for the Governmental, Proprietary, and Fiduciary Type funds. Approximately ten days is allowed after the close of each fiscal year to record all revenues, expenditures and encumbrances applicable to the period being closed. This allows for more accurate recording and reporting of the financial activities.

Revenues are recognized when they are measurable and available to finance current expenditures. Recognition and reporting occurs when the cash receipts are deposited into the State Treasury. This basis is used for self-assessed taxes, grants, fines, fees and all other items of revenue. Estimated taxes receivable from levies on ad valorem property are recorded and recognized in the balance sheets statements in this report.

Expenditures as used in the accompanying financial statements are based upon the actual amount of warrants issued and interfund transactions processed during the fiscal reporting period. This differs from the basis used in budgetary documents, which treats as expenditures monies reserved in the form of encumbrances for the payment of contracts, leases, orders and other types of obligations.

Encumbrances as used in the accompanying financial statements represent amounts of current or prior years' appropriations or fund balances which have been reserved for the eventual payment of goods or services provided or ordered prior to the closing date of the fiscal year. The amounts reported as encumbrances in the accompanying financial statements represent both items which constitute actual liabilities for which payment warrants were not issued by the closing of the fiscal year, and actual orders placed for goods or services on or before the closing date of the fiscal year. These amounts have not been considered as expenditures in the accompanying financial statements, but are shown as other obligations for which a corresponding amount of fund balance has been reserved.

2. FIXED ASSETS

Land, buildings, equipment, capital improvements and infrastructure assets are recorded as expenditures at the time of payment for their purchase or construction. Currently, these assets are not reflected on the State's balance sheets, but fixed asset records are maintained at cost through the use of agency and central accounting records primarily to insure accountability. Depreciation is not recorded on the central accounting records, but generally is maintained at the state agency level for proprietary fund type assets in conjunction with the establishment of service rates. Donated fixed assets are added to the fixed assets accountability records at their fair market value at the time of donation.

3. LEASED ASSETS

Payments made for leased assets are recorded as expenditures over the lease term as they are paid whether or not the property rights extend beyond the current fiscal reporting period. The recognition of capital leases as an asset and an obligation at the beginning of the lease term is not currently practiced, and is not reported in the accompanying financial statements. Payments made under lease-purchase options are recorded as rental expense until the purchase option is exercised, at which time the total payments to date are reflected as an addition to the fixed assets accountability records. Payments made on installment purchases for capital items are recorded at the time of payment as an addition to the fixed assets accountability records.

4. LONG-TERM DEBT

The State of Kansas has no general obligation bonds outstanding. Statutory authority has been granted for the issuance of revenue bonds payable from user fees to the Board of Regents for academic and hospital facilities, student unions, dormitories and athletic facilities; to the Department of Transportation for state freeway construction; to the Department of Health and Environment for sewage treatment facilities; and to the Department of Administration for the purchase of office facilities. The revenue bonds outstanding are reported as "Bonds Payable" by Fund Class in the Balance Sheets with the details of each bond issue reported in the General Long-Term Obligations Account Group. Issuance of additional revenue bonds is subject to specific legislative approval.

5. INVENTORIES

Purchases of materials and supplies are treated as expenditures for all Fund Types when payment is made. No amounts for inventories are reported in the Balance Sheets.

6. DEFERRED CHARGES/PREPAID EXPENSES

In all Fund Types, the item is recorded as an expenditure when payment is made. No amounts for these items are included in the Balance Sheets.

7. INVESTMENTS

Investments are reflected in the accompanying financial statements on an accrual basis for the Kansas Public Employees Retirement Fund and on the cost basis for certain other funds that are statutorily authorized to be separately invested. Other monies in the "common cash pool" in the State Treasury, not immediately available for the payment of liabilities in the form of warrants (checks), may be invested under provisions of statute by the Pooled Money Investment Board. These invested amounts are not separately stated in the Balance Sheets, but are included in the "Equity in State Treasurer's Common Cash Fund" designation under the appropriate Fund Class.

8. ANNUAL LEAVE ACCUMULATIONS

It is the current policy to record the cost of annual leave accumulations as a current expenditure at the time of payment, based upon the current pay rate at the time of usage or upon termination of employment. Classified employees earn maximum annual leave ranging from 8 to 14 hours per month, depending upon length of service. Maximum accumulations range from 144 to 240 hours depending upon length of service. Annual leave accumulations for unclassified employees are similar, but vary between state agencies. In all cases, the present policy is to fund these payments on a "pay as you go" basis.

9. SICK LEAVE ACCUMULATIONS

It is the current policy to record the cost of sick leave accumulations as a current expenditure at the time of payment based upon the current pay rate at the time of usage or upon retirement. Sick leave is generally earned by employees on the basis of one day per month with unlimited accumulation and is paid when an employee is absent due to personal illness. Payment is made to a retiring employee for a portion of the accumulated sick leave if the accumulation exceeds 100 or more days. The portion paid is dependent upon the total number of accumulated days and years of service. The minimum amount payable is 30 days and the maximum is limited to 60 days. All such costs are recorded as current expenditures at the time of payment.

10. SPECIAL CLAIMS AGAINST THE STATE AND AGENCIES

Numerous special claims covering a variety of items are filed against the State and its agencies. Generally, these claims are not considered to be routine or the type presented as normal, daily government operations. Limited statutory authority has been provided to state officials and agencies to consider and pay claims for cancelled state warrants, property damage and loss claims of not to exceed $250 by inmates of correctional institutions, property damage and loss claims of not to exceed $500 to employees suffering losses not due to their own negligence, property damage and loss claims of not to exceed $500 to other individuals due to employee or agency negligence and claims of not to exceed $500 for services rendered or goods furnished to a state agency for which payment was not made in the fiscal year in which such service or goods was furnished. The claims which may be considered, approved and paid under the limited authority granted to state officials and agencies are not considered material in amount to adversely impact the State's financial position. Claims exceeding these limits or a type for which statutory authority does not exist for their payment must be referred to and considered by the State Legislature. A claim in the amount of $3,007,172.89 has been filed by the Board of Public Utilities of Kansas City, Kansas with the Legislature arising out of providing electrical power to the University of Kansas Medical Center prior to July 1, 1981. An amount of $133,489.90 was approved by the Legislature and paid to the Board of Public Utilities June 8, 1982, for service prior to July 1, 1981. A written release and discharge from any and all claims and causes of action for service prior to July 1, 1981, was given to the State of Kansas by the Board of Public Utilities in conjunction with the payment of this sum. Other pending special claims which may be considered and approved by the Legislature cannot be reasonably determined at this time, but are not considered material in amount to adversely impact the State's financial position. The accounting treatment of all special claims is to record them as a current expense during the fiscal period in which approval and payment are made.

11. DEFICIT FUND BALANCES

Some of the individual funds included in the accompanying financial statements will reflect a negative unencumbered cash balance. This occurs as a result of the accounting practice to record orders for supplies, materials and equipment, services and other contractual obligations and construction contracts at the time the order or contract is let contingent upon the receiving of cash by the time actual payments become due. Generally, this deficit condition exists in the State Highway Fund and other Special Revenue Funds where federal grant cash cannot be drawn until payments are due to be made.

12. SALARIES AND WAGES

Except as otherwise provided by law, officers and employees are paid a proportion of their annual salary on a monthly basis for a period commencing on the eighteenth day of one month and ending on the seventeenth day of the following month. For budget and accounting purposes, such payments are charged to the fiscal year in which the last day of the payroll period occurs. Costs relating to the payroll period from June 18 to July 17 by law are considered as expenditures of the succeeding fiscal year. Exceptions are (1) officers and employees of the University of Kansas Medical Center, (2) Department of Administration Division of Printing plant personnel, (3) certain unclassified personnel of universities where the major responsibility is teaching, (4) Legislators and certain employees of the Legislature, (5) State Insurance Department insurance companies' examiners and (6) officers and employees of any state agency abolished at June 30 under provisions of law. Costs through June 30 for these exceptions are reflected in the accompanying financial statements as expenditures or funds have been reserved in the form of encumbrances for their payment.
